

If you've household waste to get rid of, here's a tip.

Ask the disposal guy to show you his SEPA licence. Ask where he's taking your stuff. And ask him why he's so cheap. If he dumps it illegally, you could get done too.

Here's a rubbish idea for getting rid of waste.

Hire a guy who doesn't have
a licence. Don't ask where he's
taking your stuff. Don't ask
why his price is so low.

Get prosecuted same as him.
Do it legally or don't do it at all.

**Who gets
fined if a
man with a
van flytips
your waste?**

**The pair
of you.**

Ask if he's a licensed waste carrier. Ask where he's taking your waste. Ask why his price is so low. Otherwise you'll get fined too.
